Before & After Battery Acid Stain Removal Project

Before & After Algae Mildew Cleaner & Retardant

RESTORATION SPECIALISTS HAS THE "ENVIRONMENTALLY-SAFE" ANSWERS FOR:

- Problem removing Stains from Concrete like Oil, Grease or Rust?
- Concrete or Masonry has Efflorescence or Grayish Calcium/Lime stains?
- Need to Waterproof, Protect & Maintain Concrete Surfaces?
- Remove Algae Mildew growth without burning eyes or gagging?
- Concrete full of Gum and Gum Stains?

Restoration Specialists is a Cleaning, Sealing and Coating Company, specializing in the Restoration, Preservation and Maintenance of Concrete, Masonry, Paver Stone, Brick, Tile and Grout surfaces to mention a few!

Restoration Specialists successfully remove Efflorescence (Calcium Lime Build up), Oil, Grease, Gum, Rust Stains, Tire Marks, Battery Acid Stains, Fertilizer Stains, Red Clay and Mineralized Ground Water Stains, Algae Mildew and More, without harm to the surface treated or the environment! Our Restoration Cleaning Techniques are ideal for all types of surfaces, and our products disinfect and are environmentally-safe, too!

Paver Stone Restoration
