Key Lime

Ocean Blue

Mango Peach

Hibiscus

Palm Frond

Macaw Teal

Sunset Red

Oleander

Parrot Green

Bird-of-Paradise

**Note:** This color card is generated from digital pictures. Different monitors may read the colors differently. Different textures and colors of concrete will accept the pigments differently. It is strongly advised to test this product in an out-of-the-way place to see how your concrete will accept the color. (Very porous concrete will absorb more pigment. Very smooth hard concrete will absorb less) Any of these colors may be made lighter by adding plain **Restore USA Concrete Masonry Sealer**. They can be intensified by applying a second coat of **Restore USA Concrete Color Sealer**. **If color match is critical, please obtain a sample.**
