## Specialty Restoration and Coatings Services

Concrete \* Masonry \* Wood

### PRODUCTS OVERVIEW

#### Restore USA Concrete & Masonry Cleaner

Is a unique environmentally-safe fluid applied deep cleaner, for cementitious surfaces to remove efflorescence (calcium/lime build-up) oil, grease, rust stains, concrete and mortar residue, stucco splatter, battery acid stains and general dirt and grime without harming the surface or the environment! Restore USA Concrete & Masonry Cleaner has been lab tested and eliminates up to 98% of viruses. After cleaning surfaces apply **Restore USA Concrete & Masonry Sealer**.

#### Restore USA Stain & Rust Remover

Is a unique environmentally-safe fluid applied deep cleaner, for all types of concrete and brick surfaces, architectural paver stone, and various types of stone experiencing rust stains from metal or mineralized ground water. After cleaning surfaces apply **Restore USA Concrete & Masonry Sealer**.

#### Restore USA Concentrate Degreaser

Is a concentrated (1 gallon makes 10 gallons for general cleaning and maintenance) formula designed for surfaces that may not require deep cleaning or for maintenance of high areas. Ideal for all types of surfaces including concrete, masonry, carpets, stainless steel, fiberglass, formica, plastic, wood and more and will not leave a residue! **Restore USA Concentrate Degreaser** has been lab tested and eliminates up to 98% of bacteria like e coli, salmonella and staphylococcus.

#### Restore USA Algae Mildew Retardant Cleaner

Is a unique environmentally-safe fluid applied cleaner, for the elimination of algae, mildew, mold, moss and spores associated with these types of funguses.

This cleaner acts like bleach but does not have the odor or caustic affect that is associated with bleach. This product will not harm surfaces treated and is ideal for rubberized roofs, mexican tile, shingles, stucco, concrete, brick, architectural paver stone, plastic, wood and more or you may use our **Restore USA Algae Mildew Retardant Cleaner** in your laundry to make your whites whiter and not destroy the clothing.

#### Restore USA Concrete & Masonry Sealer

Is a specially formulated penetrating sealer, that preserves and protects all types of concrete and masonry without changing the coefficient of friction of the treated surfaces.

By filling the pores **Restore USA Concrete & Masonry Sealer** helps to minimize efflorescence from reoccurring by reducing water vapor transmission and reduces oil, dirt and stains from penetrating the surfaces.

Products available in, 1 gallon containers, 5 gallon pails, 55 gallon drums & 275 gallon totes.
